eSPACE

Tired of using pen and paper or post it notes to manage your facility? (Which is your most expensive physical asset)

See the benefits of using a facility management software below:

# Why Your Church Needs Online Maintenance Tracking

ORGANIZATION

Make sure work orders don't slip through the cracks anymore with an online dashboard to track / prioritize everything.

SCALABILITY

Make it easy for your staff to submit work orders via text, email, etc. Even if staff leaves, the requests remain in the system.

HISTORICAL DATA / RECORDS

By keeping requests online, you can see historical records and analytics to make predictive decisions.

AUTOMATED REMINDERS

Get automated reminders for when preventative maintenance needs to be performed so you can extend the life of your facility.

eSPACE

Tired of using pen and paper or post it notes to manage your facility? (Which is your most expensive physical asset)

See the benefits of using a facility management software below:

FUTURE GENERATIONS / NOT IF BUT WHEN

We have a choice to manage our facility like we have the past 20 years, or we can set the future generation up for success in the next 20 years.

STEWARDSHIP

Without a proper maintenance plan, how can you really be a faithful steward over the asset you have been entrusted with?

In summary, never have maintenance fall through the cracks again and increase your facility operational efficiency by 25% with eSPACE Work Order and Asset Management.
